SPECIALS

Your resource for custom fittings, valves and manifolds If you need a custom brass fitting, valve or manifold, we can design and manufacture it for your specific application. In exactly the configuration you want. And supply any quantity -from a single part for a prototype to a large production run -in an exceptionally short time frame.

Every part is manufactured on the most current CNC equipment available. So each piece will meet or exceed your most exacting tolerances. And all are guaranteed to comply with the applicable standards, including SAE, ISO, DIN, JIS, ASTM and MIL-Spec.

In most cases, we can provide a price quote and shipping date when you call, and supply approval designs within 48 hours after receiving your CAD files.

How to order Parker Brass Fittings and Valves

When ordering, please state the part number of each type of fitting or valve desired and the quantity. Part numbers are constructed from letters or numbers that identify individual products by style, type of material, size and any available options.

To select fittings for specific applications, refer to the Parker fitting selector chart in Catalog 3501E. Applications of the Parker fittings and valves are the responsibility of the customer. If questions arise concerning which type or size fitting or valve to specify, consult your Parker Brass Products Distributor, Parker Field Sales/Technical Services -Brass Products Division, or your local Parker Service Center.

Note: Refer to Parker Catalog 3501E for more detailed application information.

Call toll-free 1-800-C PARKER (1-800-272-7537) Parker Information Center for catalogs, literature or additional information.

Additional Parker Brass Products Division Publications

The full line of Parker Brass Division products is available in the 3501-E master catalog. This soft cover catalog contains complete specifications and technical information, plus handy reference charts and tables. The catalog is also available on a CD-ROM for all Microsoft PC operating systems.

The inPHorm CD-ROM for Brass Products simplifies product selection by making it easy to find detailed information, specifications and CAD drawings. A built-in order form makes online quotation fast and simple. The CD-ROM runs under all Microsoft PC operating systems.

WARNING

Failure or improper selection or improper use of the products and/or systems described herein or related items can cause death, personal injury and property damage.

This document and other information from Parker Hannifin Corporation, its subsidiaries and authorized distributors provide product and/or system options for further investigation by users having technical expertise. It is important that you analyze all aspects of your application and review the information concerning the

product or system in the current product catalog. Due to the variety of operating conditions and applications for these products or systems, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and systems assuring that all performance, safety and warning requirements of the application are met.

The products described herein, including without limitation, product features, specifications, designs, availability and pricing, are subject to change by Parker Hannifin Corporation and its subsidiaries at any time without notice

OFFER OF SALE The items described in this document are hereby offered for sale by Parker Hannifin Corporation, its subsidiaries or its authorized distributors. This offer and its acceptance are governed by the provisions stated in the "Offer of Sale".
